AIR RESISTANCE  
FITNESS EQUIPMENT

Introducing the new...

## HUR Lease Rental Scheme

### Overview...

With capital funding increasingly restricted HUR have been exploring more imaginative finance methods for customers to be able to develop their health and fitness provision, in such a way that does not impact upon capital spending budgets.

The result is the **'HUR Lease Rental Scheme'**, which is a revenue item, extending over 36 months. It is more competitive than traditional lease purchase methods and offers more flexibility.

It also includes a provision for service and maintenance, so that these costs do not add to budgetary pressure in subsequent years.

At the end of the period all rented equipment will return to HUR (UK) Ltd\* unless the customer wishes to:

- Negotiate a new transaction\*\*
- Upgrade the machines with new HUR\*\*

For the duration of the agreement HUR (UK) Ltd will provide:

- Two service visits per annum.
- Extended warranty to include all parts (excluding upholstery), repairs, and labour.
- Staff Induction training.

The customer will maintain responsibility for on-going upkeep, basic maintenance, and safety information for all users of the equipment.
